

Course syllabus		College of Pharmacy
Course code	PHM 593	Credit No. 1(0-3-2)
Course title	Seminar	Section 11, 12
Semester	2	Academic Year 2025
Students	Pharmacy students, 5 <sup>th</sup> year	

**Instructor(s)**

1. Academic staff from Department of Manufacturing Pharmacy
2. Academic staff from Department of Pharmaceutical Technology
3. Academic staff from Department of Pharmacognosy
4. Academic staff from Department of Pharmaceutical Chemistry
5. Academic staff from Department of Social and Administration Pharmacy
6. Academic staff from Department of Pharmacology
7. Academic staff from Department of General Pharmacy Practice
8. Academic staff from Department of Specialty Pharmaceutical Practice

**Course coordinator(s)** Nuntachai Hanpramukkun, Ph.D.

Asst. Prof. Patompong Satapornpong, Ph.D.

**Class hours and location** Friday, 09.00 a.m.– 12.00 p.m., Room 4-201B

**Pre-requisite course(s)** -

**Co-requisite course(s)** -

**Course description**

Seminar focused on in-depth discussion, synthesize the knowledge of research, analysis of specific pharmacy topics and summarize the multiple sources to generate a novel insight in the pharmacy student seminars. Moreover, this seminar provides pharmacy students to prepare the seminar presentation in standard with English language and able to communicate knowledge effectively to a general audience. Particularly, the benefits of seminar through their oral presentation consist of receiving expert knowledge in different fields of pharmacy, integrating academic skills development and soft skills and providing an environment for deep learning and problem-solving to pharmacy students.

**Learning objectives** When completion of this course, the students should be able to:

1. Search and collect information from reliable sources.
2. Analyze and synthesize information to existing knowledge, and present important topics through oral presentation.
3. Write correct references according to the style of Vancouver.

**Course outlines** (as shown in table below)

### Methods of Instruction

1. In-class practice, demonstration and presentation techniques.
2. In-depth discussion, analysis and summarize the multiple sources to present a novel knowledge through evaluating an oral presentation.

### Assessment

Information searching	10 %
Report and review article	20 %
Presentation	30 %
- Contents	15 %
- Performance	10 %
- Questions and answer	5 %
English examination (RSU-2 test)	20 %
Skill and application	15 %
Post-test	5 %
- Grading Criteria: Earning marks lower than 50% is considered as F grade.	
- Student grades must be approved by the academic committee and the academic standards board of the college.	

**Note** Class attendance is not less than 80% of all class sessions.
